

## **SANRAKSHAN**

We have unified three of the Energy based events viz. Eco Huts, Idea Innovator Challenge and God Of Small Things. The essence of all the three events is conservation of energy to create an efficient system. The panel of judges will be from all concerned streams. There will be no changes in the judging criteria.

The list of participants selected is attached. Selected teams are required to prepare a presentation in PPT format.

1. The presentation should be of duration 8 minutes, after which you will have 90 seconds for concluding and wrapping up your concept.
2. This will be followed by a 3minute Question/Answer round by the panel of judges.
